

The April meeting was a tour of the new 911 Center for Ontario County. Scott, N2UMH, led a group of 25 members and guests for one and one-half hours and explained and showed the many facets of the new system and dispatch stations. We also were shown the area where RACES has a D-Star radio and where we would be if the event of a need by the county. In a communications disaster, RACES members would have access to provide information to the 911 center about conditions around the county.
